

Whale chain breaker / riveter

Chain tools for breaking / riveting roller- and leaf chains

Whale chain breaker / riveter

Breaking and riveting are made easy with this all-in-one tool, perfect for on-site chain disassembly and reassembly. Its robust design and simple screw-and-punch action ensures efficiency and reliability. The Chain breaking and riveting punch requires a hammer, securely fastening both sides of the rivet and preventing over-tightening for optimal chain performance.

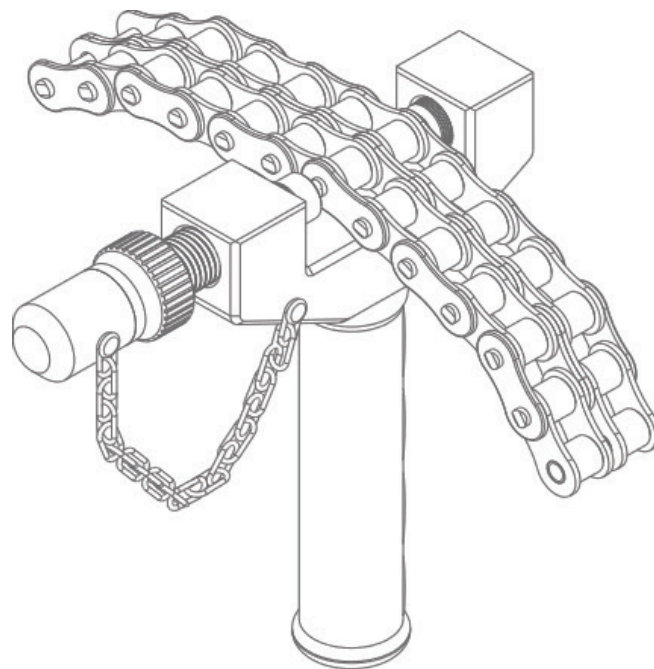

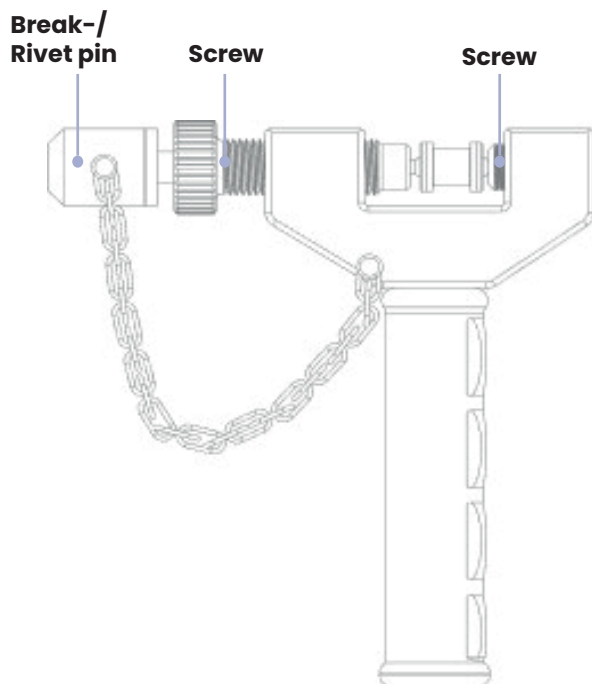

Compatible with ISO and ANSI roller chains, as well as LL/ AL/ BL leaf chains, the Whale chain tool comes in nine sizes to break a wide range of simplex and duplex chains. Spare pins and riveters separately available.

Technical highlights

- Suitable for chain pitches from 6,350 mm to 31,175 mm
- Compatible with both ISO and ANSI standard roller chains
- Also suitable for LL, AL and BL leaf chains
- Available in 9 different sizes
- Designed for breaking and riveting in one tool; the riveting pin is optional
- Robust construction ensures durability and reliability on-site
- Simple screw-and-punch mechanism for efficient operation
- Prevents over-tightening, ensuring optimal chain performance
- Spare pins and riveters separately available

Alternative tools

- Manual chain breaker available for cutting without the use of a hammer
- Specialized workshop breakers and riveting tools also available
- Mounting tensioner for easy connecting link assembly
